Computer Security Cables

When your school depends on computers and other valuable office equipment, you face a double threat from the possibility of theft. Not only could you lose their computers and office equipment, but also the valuable information stored in them - which can be worth many times the value of the equipment.

Securing all your valuable equipment simply with computer security cables and preventing unauthorized access to disk drive via data and software security system.

Communication Systems

- Detect digital cordless telephone systems
- Public address systems (P.A. Systems)
- In-house paging systems
- PABX telephone systems
- Intercoms - communication between the visitor and staff

Beam system

Wired alarm

Note: All systems can be linked to a control centre and to page a guard.

Alarm systems

CCTV Systems

Cameras are ideal to catch theft when it occurs or to act as a deterrent. The new digital systems provide long record times, without tapes and allow computer access anywhere and all the functions allowed by a computer e.g. internet

We are the agent for European CCTV market leader .- Norbain:

- Digital Recorder (up to 6 months recording)
- Various cameras
 - Day/Night type
 - Dome type
 - Covert type
 - Vandal resistant type
- Motion sensing cameras
- VCRs multiplexer
- Remote view system (telephone link)
- Over 5,000 products in the Norbain
