

# CAREPORT

Care for your loved one through your smartphone

## Wireless Devices

Floor Mat

Motion Sensor

Door Contact

Pendant Button With Man Down Function

Bed Pressure Pad

Bathroom Alarm

- By connecting CarePort with your router at home, alerts can be sent to your smartphone via the Cloud
- Suitable for individual home use
- Allows family members to monitor their seniors at home with their smartphones
- All alerts and calls are received and managed by you on the phone
- Easy to set up by just scanning QR codes at the back of the unit
- Special feature like Man-down function is available on pendant transmitters
- It works with our other wireless devices to help monitor your loved one
